Accept bid of

legal notice calling for bids or proposals for the construction of certain sewers and appurtenances under the ordinance entitled "an ordinance to provide for the construction of a further addition to the system of sewerage already constructed in the City of Plainfield", approved August 1, 1910, as to all works except the pumping plants and appurtenances, (no lower bids having been submitted as required by the plans, forms of proposals, specifications, contracts and bonds on file with the City Clerk and referred to in the legal advertisement for sealed proposals), and

whereas, due notice of the time, to wit, Monday evening, October 3^d, 1910, at 8 o'clock P.M., when the Common Council would meet at their usual place of meeting to receive proposals in writing for doing the work and furnishing the materials, was given as required by the statute by advertisement inserted in the official newspapers, published and circulating in the City of Plainfield, at least two weeks before the time of said meeting, of the work to be done and the materials to be furnished, and the said Common Council at the time of ordering such advertisement did cause to be filed in the office of the City Clerk a particular specification of the work to be done and the materials to be furnished, and

whereas, all proposals that were presented at the time and place designated were received by the Common Council, and no bids were received previous to the hour designated in the public notice, and no bids were received thereafter, and upon receiving such bids the Common Council did immediately proceed to unseal the same and publicly announce the contents in the presence of such of the parties bidding or their agents, as chose to be then and there present, and did also then and there make proper record of the prices and terms upon the minutes of the Common Council.

Resolved, That the said bid of James A. Christie, as to all works except the pumping

Communication of Dec. 12th from Andrew McClean Parker, addressed to the Mayor and referred to the Council, respecting the Athletic Field on Randolph Road, was read. Councilman Buxton moved the same be received and referred to the Council of 1911. So ordered.

The said communication is as follows:

[illegible][illegible]

THE UNIVERSITY OF CHICAGO

Princeton, N. J., Dec. 12, 1910.

Chas. J. Fisk, Esq.,
Mayor of the City of Plainfield,
Dear Sir:-

I beg to report that I have completed the work I started out to do on the property on Randolph Road, near Woodland Avenue, to make it an athletic field, and the premises are now properly graded, the track laid out, the park work done so far as it was possible this season, and as soon as the grass can get a short start in the spring, the place will be ready for the uses intended. I recently met the Playground Commission, and at their urgent request, agreed to further equip the premises with a comfort station, for males and females, and an administration office, which will be done as soon as the weather permits in the spring. In the meantime, I desire to turn the premises over to the city through you as Mayor, and to thank you for your co-operation in preparing what I hope will turn out to be a useful bit of land for the boys and girls of Plainfield for a long time to come.

I have expended to date on the field, Twenty Thousand, Eight Hundred and Nine and 95/100 dollars (\$20,809.95), for which I can give my vouchers, in case it should be deemed advisable to audit the account, under the terms of the lease.

In turning the premises over for the use of the boys and girls, I desire to have them aware of the debt they owe to the former head of the School System Dr. Charles H. Stillman, and it would afford me much pleasure to have the field officially designated as the "Stillman Field". We older ones who knew the doctor and saw him in his constant attention to the wants of the boys and girls in the school can recall the wonderful lead our Plainfield School had over any school within our acquaintance, and we knew that it was largely due to his personal efforts, that this was so. The seed then planted has continued to bear the best of fruit, and it is a part of our duty to perpetuate the fact that this is due to the Doctor's care, in the earlier years of the school. It is forty-three years this coming April since I applied for admission to the Plainfield School and I have followed the progress the system has made in that time. No community (except possibly a college community) in the whole United States, can show for its size, so great an aggregation of educated men and women, possessed of academic degrees, as yours can. The second condition naturally followed the first. The school advantages Plainfield had to offer, attracted intellectual people and they came and made the city their home. So those who are here enjoying the advantages now so freely afforded, really have to thank the Doctor, and it is for this reason I hope the field may be officially designated "Stillman Field". I hope the field may be freely used and that it will be instrumental in building up fine bodies in your boys and girls, and if this should be so, my objects will have been accomplished. I now turn for their games and sports will have been accomplished. I now turn the premises over to you, and hope that the Playground Commission may be provided with sufficient funds to enable them to administer the field in a manner in keeping with its natural beauty and its possibilities as an athletic and recreational center.

Very respectfully,

Your obedient servant,

Andrew McClean Parker.

for employ-

legal counsel.

Communication of Feb. 15th was received from his honor, the Mayor, returning and being his veto of the Resolution adopted Feb. 6th for the employment of legal counsel, which was read, and on motion referred to the Finance Committee.

The Honorable Common Council of the City of Plainfield.

Gentlemen:-

I beg to return without my approval the resolution hereto annexed and adopted by your

FEB 27 1911

Honorable body on the sixth day of February instant, authorizing the Finance Committee to employ legal counsel at the expense of the City on questions arising under the Charter and Ordinances thereof. The reason for my disapproval is that the Charter of the City provides that the Mayor shall nominate, by and with the advice and consent of the Common Council, appoint all officers of the City not required to be elected, except City Clerk and Janitor of the Council Chamber. Ordinances provide for the appointment of a "Counsel to the Corporation" who, "shall when required advise the Common Council, and their committees and officers."

It would thus appear that the resolution is not framed in accordance with the law governing the matter, and further than this it is unsound for the reason that if one committee be authorized to select its legal counsel, then every other committee would be entitled to select separate counsel, and from a multitude of counsellors thus created, it is fair to assume there would be a division of opinions leading to too much complexity. I am,

Your obedient servant,
Geo. W. V. Moy,

Mayor.

Resolved, that the Finance Committee be authorized, and said Committee is hereby authorized, to take legal counsel, at the expense of the City, on any question or questions arising under the Charter and Ordinances of the City, upon which, in their judgment, such counsel shall be necessary.

Adopted by the Common Council Feb. 6, 1911.

Vetoing
Resolution
for opening
Kensington
Avenue.

Communication of Feb. 15th was received from His Honor, the Mayor, returning with and being his veto of the resolution adopted by the Common Council Feb. 6th respecting the opening of Kensington Avenue, which was read, and on motion referred to the Streets Committee.

Feb. 15, 1911.

The Honorable Common Council of the
City of Plainfield.

Gentlemen:-

I beg to return herewith without my approval the resolution hereto annexed relating to the Kensington Avenue extension. The reasons for my disapproval are:-

First. There is no real need for extending the Avenue in the manner set forth in the Ordinance as it would only shorten by approximately one city block, the distance between Park Avenue and that portion of Kensington Avenue already laid out and opened, as by reference to the map will more fully appear, and to which your attention is directed.

Second. The method proposed will be very expensive and will result in the imposition of a considerable burden upon the City, and more particularly upon the tax payers within assessable range of the supposed improvement.

Third. A considerable number of the residents of Kensington Avenue are very much opposed to the proposed extension, a number of whom have expressed in writing to me their objections.

Fourth. A resident and property owner has served upon me as Mayor of the City, a notice in writing that he will proceed by injunction if necessary, to restrain the matter on the ground that the present plan is not only unwise and illegal but also unjust, wasteful and extravagant.
